## SUMMARY

Experienced Web3 Product Manager with a track record of successfully developing and managing web3 Dapps over 3 years. Proven expertise in overseeing projects from inception to delivery, collaborating effectively with diverse stakeholders to ensure project success. Eager to take on the role of Web3 Product Manager and utilize my skills to drive business success.

---

## EXPERIENCE

### Product Manager [ Technical ]

#### Pluto

September 2023 – Present, Dubai,UAE

- Played a key role in fundraising by crafting the company whitepaper, developing the pitch deck, and securing investments from a diverse group of angel investors, including Jayanti Kanani, the founder of Polygon.
- Led full product development and provided strategic guidance, overseeing three critical initiatives for the Blockchain team, product team and design team contributing significantly to the company's growth.
- Streamlined team processes through inclusive discussions, linear tasks resulting in a notable 13-point increase in team velocity, improving fast feature release each week.

#### Tech Lead

##### consciousleap TM

April 2023 – August 2023, Dubai,UAE

- Led and guided a team of 6 developers as a tech lead to successfully develop and launch a full website and application from scratch, while setting and enforcing coding standards and best practices.
- Achieved a successful launch of the website and app, harnessing the power of PHP, MySQL,React and vue.js and the Laravel tech stack alongside other technologies. This accomplishment underscores the effectiveness of the team's efforts under my leadership, positioning the project for ongoing success.

### Lead Web3 Engineer

#### Platter Inc.

December 2022 – April 2023, Bangalore, India

- Achieved 90%+ user satisfaction through collaboration with designers and product managers. Integrated 15 third-party APIs for enhanced functionality.
- Spearheaded the development logic for dApps, ensuring the deployment of 8 fully operational decentralized applications (dApps) with an impressive 99.9% uptime using Web3 technology. This achievement solidified our reputation for technical excellence and set the stage for the continued success of our Web3-based projects.

### CTO In Web3

#### Gigaverse pvt. ltd.

July 2021 – December 2022, Pune, India

- Spearheaded and managed high-performing technical product teams, resulting in the successful development and execution of protocol strategies, designs, and implementations for 5 cutting-edge projects, including the launch of a groundbreaking NFT project.
- Leveraged Web3 tech stacks, including web3.js and ethers.js, to create bespoke bots tailored to meet the unique needs of Gigaverse and its clients. These bots played a pivotal role in defining and launching 8 instances of the protocol.
- Further, the company expanded its services to provide growth hacking expertise to Web3 companies. This includes setting up and optimizing social media presence, such as Twitter, Discord, and Telegram, to enhance community engagement and outreach in web3 space.

### Product Developer

#### PhenomPeople Inc.

January 2022 – April 2022, Hyderabad,India

- Employed the MERN (MongoDB, Express.js, React, Node.js) stack to create user-friendly web applications, enhancing data visualization and reporting capabilities for the marketing team. Additionally, harnessed Python, Beautiful Soup, MySQL, and NumPy for advanced data analysis, automation, and system enhancements.
-

## PROJECTS

---

### Misfits By Pluto [ live on opensea ] - <https://opensea.io/collection/plutomisfits>

Pluto • <https://opensea.io/collection/plutomisfits> • September 2023- Present

• Aligned product development with business objectives and market demands by collaborating with cross-functional teams to define product requirements, prioritize features, and optimize smart contracts and NFT minting processes. Also, managed NFT marketplace integrations, coordinated NFT collection releases.

### consciousleap website [LARAVEL] - <https://consciousleap.co/>

consciousleap TM • <https://consciousleap.co/> • April 2023 - Present

• Developed the consciousleap website framework using the full Laravel and PHP tech stack, created custom-tailored modules leveraging various tools and technologies for an interactive platform, and optimized website performance for a remarkable 70% reduction in loading time.

### Platter Alpha Product

Platter Inc • December 2022 - Present

• Designed and developed a user-friendly cryptocurrency portfolio Dapp from scratch using the MERN stack. Integrated various cryptocurrency exchanges and wallets for seamless tracking of holdings across platforms. Implemented a high-performance backend API in Node.js and Express for real-time market data.

### Web3 Defi app [solidity contracts, NFT's, Tokenomics, Token Launching ]

Gigaverse pvt. ltd. • August 2021 - December 2021

• Developed and deployed a verified smart contract for \$GIGS, a virtual currency on the Binance Smart Chain (BSC), ensuring a smooth token launch. Integrated an NFT candymachine with Metaplex standard contracts, facilitating direct NFT listings from trusted sources to enhance project accessibility. Leveraged Solidity and the Remix IDE to create secure smart contracts.
