SUMMARY

Tech Lead with 3 years of experience in developing and managing web3 Dapps. Proven ability to manage projects from conception to completion. Skilled in working with a wide range of stakeholders to ensure successful completion of projects. Open for the position of Web3 / Project / Technical Manager to leverage my expertise and drive business success.

EXPERIENCE

Tech Lead

consciousleap TM

April 2023 - Present, Dubai,UAE [Remote]

- 1] Led and guided a team of 6 developers as a tech lead to successfully develop and launch a full website and application from scratch, while setting and enforcing coding standards and best practices.
- 2] Orchestrated daily developments and Agile practices, including sprint planning, daily stand-ups, and sprint retrospectives, which resulted in a remarkable 40% increase in team productivity and a substantial 45% improvement in code quality. These efforts ensured the on-time and on-budget successful launch of the project.
- 3] Achieved a successful launch of the website and app, harnessing the power of PHP, MySQL, and the Laravel tech stack alongside other technologies. This accomplishment underscores the effectiveness of the team's efforts under my leadership, positioning the project for ongoing success.

Lead Web3 Engineer

Platter Inc.

December 2022 - April 2023, Bangalore, India [On-site]

- 1] Executed end-to-end development and deployment of 10+ smart contracts into dApps, enabling blockchain functionality.
- 2] Crafted 12 user interfaces for dApps using Web3 tech stacks, integrating 7 web3 wallets and decentralized storage in 5 projects. Achieved 90%+ user satisfaction through collaboration with designers and product managers. Integrated 15 third-party APIs for enhanced functionality.
- 3] Successfully delivered an alpha product, currently engaging investors to secure funding, with \$100,000 already committed, advancing our Web3-based projects
- 4] Spearheaded the development logic for dApps, ensuring the deployment of 8 fully operational decentralized applications (dApps) with an impressive 99.9% uptime using Web3 technology. This achievement solidified our reputation for technical excellence and set the stage for the continued success of our Web3-based projects.

Full stack Developer

Gigaverse pvt. Ltd.

July 2021 - December 2022, Pune, India [On-site]

- 1] Spearheaded and managed high-performing technical product teams, resulting in the successful development and execution of protocol strategies, designs, and implementations for 5 cutting-edge projects, including the launch of a groundbreaking NFT project.
- 2] Leveraged Web3 tech stacks, including web3.js and ethers.js, to create bespoke bots tailored to meet the unique needs of Gigaverse and its clients. This rigorous approach contributed to a 98% milestone achievement rate for website code and smart contracts, and the successful launch of the NFT project using additional technologies such as Solidity for smart contracts and IPFS for decentralized storage.
- 4] Further, the company has expanded its services to provide growth hacking expertise to Web3 companies. This includes setting up and optimizing social media presence, such as Twitter, Discord, and Telegram, to enhance community engagement and outreach, solidifying our position as a comprehensive partner in the Web3 ecosystem.

Product Developer

PhenomPeople Inc.

January 2022 - April 2022, Hyderabad,India [On-Site]

- 1] Conducted in-depth business discussions and provided essential market data to senior management, informing strategic decisions.
- 2] Utilized the MERN (MongoDB, Express.js, React, Node.js) stack to develop user-friendly web applications, improving data visualization and reporting for the marketing team and successfully deployed 8+ projects for international clients, showcasing the ability to deliver solutions across global markets.
- 3] Leveraged Python, Beautiful Soup, MySQL, and NumPy for advanced data analysis, automation, and system improvements, enabling better-informed business decision

PROJECTS

consciousleap website [LARAVEL]

consciousleap TM

1] Developed the consciousleap website framework using the full Laravel and PHP tech stack, created custom-tailored modules leveraging various tools and technologies for an interactive platform, and optimized website performance for a remarkable 70% reduction in loading time.

2] Enhanced the customer experience by developing improved usability features, utilizing version control and bug tracking systems within the Laravel and PHP environment, and providing 24-hour responses to customer inquiries.

Platter Alpha Product

Platter Inc

1] Developed a portfolio Dapp from scratch using MERN stack, providing an intuitive and interface for users to manage their cryptocurrency portfolios.

2] Integrated multiple cryptocurrency exchanges and wallets into the Dapp, enabling users to track their holdings across multiple platforms in one place.

3] Developed a backend API using Node.js and Express to fetch market data and user account balances, optimizing the Dapp for performance.

Growth Hacking Tools [Python]

PhenomPeople pvt. Ltd.

1] Developed several Telegram marketing bots under Gigaverse to automate customer conversion and connect them with relevant services.

2] Utilized MS Excel-sheet with Python and Numpy embedded application to create the bots.

3] Implemented web scraping scripts to collect relevant WhatsApp data for targeted marketing using technologies like Selenium and BeautifulSoup (BS4).

Web3 Def app [solidity contracts, NFT's, Tokenomics, Token Launching]

Gigaverse pvt. Ltd.

1] Developed and deployed a verified smart contract for the virtual currency \$GIGS on the Binance Smart Chain (BSC), ensuring essential functionalities for a seamless token launch.

2] Integrated an NFT candy machine using the Metaplex standard contracts, allowing for direct NFT listings from verified sources and enhancing the NFT project's accessibility and utilized Solidity and Remix IDE to develop secure smart contracts that met platform requirements, ensuring the integrity and robustness of the token and NFT functionalities within the project's ecosystem

INVOLVEMENT

President

Sinhgad • Toastmasters Club • March 2022 - March 2023

1] Implemented new operating plans that increased company profitability by 40% through cost and operational efficiency, built new partnerships which increased customer base by 20% and generated new revenue streams of over 3 lakh

2] Developed and lead multi-year strategic plan that integrated product, service, and operational initiatives with long-term financial goals.

EDUCATION

B.Tech [Computer Science] : Minor in Information Technology • Pune University • Pune ,India • 2021 • 9.89 CGPA

12th : Minor in Science • Kendriya Vidyalaya • Muzafarnagar • 2016 • 76%

10th : Minor in Science • Kendriya Vidyalaya • Muzafarnagar • 2014 • 10 CGPA

SKILLS

Blockchain (Ethereum, Binance Smart Chain, Solana, zk rollups), **Smart contracts** (Solidity, Vyper), **Web3** (Web3.js, Ethers.js, Substrate), **Decentralized storage** (IPFS, Arweave), **Stack** (MERN, Laravel, PHP), **Frontend** (HTML, CSS, JavaScript, React.js, Vue.js, TypeScript), **Backend** (Node.js, Express, Laravel, PHP), **Databases** (MongoDB, MySQL, PostgreSQL), **DevOps** (Docker, Kubernetes, AWS, GCP, Azure), **3D Render** (Three.js, D3.js).
